Address : Warananagar, Tal- Panhala Dist- Kolhapur

Portfolio : <https://jeetuiux.github.io/ux/>

Frontend Developer | UI/UX Designer | Creative Thinker – Curious mind with a passion for turning complex ideas into simple, elegant interfaces. I blend design and code to build impactful digital products, always eager to learn, grow, and solve real-world problems.

## Work Experience

[Sensia Energy Private Limited](#) 2024 –Present

### Development Experience

- 4 Year experience as UI / UX Developer with hands-on expertise in JavaScript, HTML, CSS, Bootstrap, React js, AngularJS.
- Collaborated across cross-functional teams to turn complex ideas into creative, user-friendly solutions.
- Developed web application using client-side web technologies like Javascript, AJAX, JQuery, CSS, HTML. Aware of different JavaScript libraries used to develop web application.

### UI / UX Designing Experience

- Experience of collaboration with clients to understand their business goals, user needs, and project requirements in automotive, oil and gas industry.
- Collaborated with a diverse, international team across multiple countries, bringing together for best user experience.
- Expert in research methods like ,User Interview, Card Sorting , Empathizing User, Competitive analysis & User-centered Design.
- Ability to iterate through conceptual ideas using sketches, storyboards, wireframes, user flows, interactive prototypes, data visualizations.
- Good knowledge of user center design principles, UX laws, Usability, design process, design thinking and Human Computer Interaction.
- Good communication, presentation, and documentation skills, and the ability to defend and convince stakeholders through design.
- Skilled in crafting design language systems that elevate brand identity and enhance user experience.
- Expert in developing high-fidelity, interactive prototypes that mirror the look and feel of the final product, ensuring a seamless transition from concept to reality.
- Applied an in-depth understanding of Figma's fundamentals to lead the design.
- Strong UI development knowledge enables smooth collaboration with development teams and ensures a seamless handoff from design to deployment.

## Projects

[AVALON](#) – UX Designer

- AVALON by Sensia Energy brings smart automation to oil and gas wells, maximizing efficiency and control for a safer, more productive operation.

- Enhancing user experience and reestablishing a cohesive design system for the company by leveraging expertise in UX design.
- As the sole UX designer in my company, I have developed a strong ability to handle diverse projects independently and deliver high-quality results across various design challenges

#### Avocet – UX Designer

- Avocet serves as a streamlined version of Avalon, offering unique functionalities organized into modular components across both Avocet Web and Avocet Mobile platforms.
- Collaborating with diverse Product Owners to conduct in-depth requirement analysis, card sorting, user story development, user research, usability testing, and various UX research methods to drive impactful design decisions.

#### IASYS Technology Solutions pvt ltd 2021 –2024

##### Combine brix application – Product Designer

- Combine brix application is a product of IASYS Technology solutions, which provides data management and product validation at one stop.
- Redesigned the entire product by enhancing the user interface and User experience, conducted various user-research like user interviews, competitive analysis, and card sorting.
- Proper collaboration with the development team and involvement in the development process for technical possibilities.

##### Emerson Electric – Lead Product designer

- I designed the product for Emerson Branson for welding data management with a clean user interface and improved user experience.
- Collaboration with US clients for a better understanding and requirements gathering

## Skills

### Language

- HTML, CSS
- JavaScript
- AngularJS
- ReactJS
- Core Java
- Webix

### Software

- Figma
- Adobe XD
- Proto.io
- InVision

### Design

- Drawing
- Typography
- Responsive design (Mobile & Destop)
- Information Architecture
- Wireframing & Prototyping
- Rapid Prototyping
- Visual Design
- Research
- Usability Testing
- HCI
- Design Thinking
- Problem-Solving

## Certifications

1. Google UX Certification
2. IBM Enterprise Design Thinking
3. Advance Figma Design
4. Advance Bootstrap 5
5. Human Computer Interaction

## Education

Tatyasaheb Kore Institute Of Engineering And Technology, Warananagar.

Percentage :67% 2021 [ B.E (CSE) ]

Yashwantrao Chavan Warana Mahavidyalay, Warananagar.
